>> OUTWIT – OUTPLAY – OUTLAST <<

SURVIVOR

>> The Golden State <<

<<<>>>

When the Northern Counties took on the role of Conference Host, we cringed when we realized that meant coming up with a “theme”. We wanted to keep it positive without downplaying the mad, unscripted reality of our working environment. In February, Julie Bustamante and I visited Pacific Palms hoping to find the perfect ink to connect all the dots. First impressions: It was like an island, secluded and insulated by a lush landscape.

It actually rained when we were there. The second and final night of our stay there was a major downpour. The few guests that were brave enough to venture out staggered back into the lobby looking like they literally just had buckets of water poured over their heads. We felt like we were in the eye of a tropical storm. Later, from a balcony on high we looked out over the grounds seeing only sheets of water, blowing wind, and wait, what is that orange thing? It was a fire pit with flames climbing skyward, in spite of the rain!

The telephone show “Survivor” has become a pop culture staple. Even non-viewers are aware of the premise. Contestants face impossible challenges trying to “outlast, outwit and outplay” using their physical strength and mental acumen. The theme became even more “perfect” as each week we held our breath to see who or how many would be able to attend the conference as the budget cuts began statewide and we were already committed to a certain number of attendees. From the beginning, key members came forward to assist in carrying out the presentation concepts suggested by Northern Area Hosts.

On behalf of the Northern Area, I'd like to point out that despite the similarities and the appropriateness of our theme, there is one rather large difference. The telephone version has just one “Survivor”.

Welcome to the island.

Kathie Moran
for the Northern Area Counties

California Association of Clerks & Election Officials

Crucial Conversations – Mastering the Ultimate Survival
Skill Tools for Talking When Stakes are High; Emotions are
Strong and Opinions Differ.

Linda Marie Manton and Darlene Liesch
University of California Cooperative Extension

Teams and organizations suffer from under-communications, differences, disagreements, decision paralysis, politics and alienation. Crucial Conversation Training will help you create conditions where people speak with complete candor (no matter what the topic) and with complete respect (no matter the person).

Attend this session and learn for yourself what hundreds of other organizations already know. Learn the skills that will deliver specific improvement in areas such as:

- *Build Greater Personal Influence and Power*
- *Move "Stuck" Relationships and Conversations Forward*
- *Improve Personal, Team and Departmental Results*
- *Reduce Stress from Team Frustration and Blocked Communication*

10:30 - 11 Refreshment break, Hike to Exhibit Area Concourse
Bring your survival bag

11:00 – 12 **County Clerk** Majestic A & B

Majestic I

Response to Proposed Recount Regulations

Gail Pellerin, Santa Cruz County - Sequoia Voting Systems

Dean Logan, Los Angeles County - Los Angeles System

Deborah Seiler, San Diego County - Premier Elections

Katherine Reedy, Orange County - Hart InterCivic

Alice Jarboe, Sacramento County - ES&S

Moderator: Janice Atkinson, Sonoma County - DFM

Panel report on gathering and reviewing of the Recount Regulations for each voting system, to include compiled proposed amendments from all voting systems into a single document.

1:30 - 3

Multi-Discipline

Majestic C & D

Transcend Translations – Readability of your Documents

Maria Mindlin, Language Specialist & CEO

By answering the following questions this session will educate you to improve the readability of your documents:

- 1. What is the most important message of your document?*
- 2. Who is the audience?*
- 3. How does your audience come into contact with the document?*
- 4. What do you believe are the major readability obstacles of your document?*
- 5. Which parts of the document does your audience find most difficult?*
- 6. Will this document be translated to other languages? Which ones?*

Participants need to bring a fully charged laptop computer, hard and soft copies of a SHORT document they want to improve. This class will be fun, AND the participants will learn a lot about how to make their documents more readable.

SPEAKERS

DAVID REMSON

Wednesday, July 15th General Session
Majestic 1 – 10:30–3:00

David Remson is currently employed as the Administrator of the Professional Development Center at the Colorado Department of Personnel & Administration. In 1984 he completed a Bachelor's degree in education from the University of Northern Colorado and holds a Master of Science degree in Management and Organizational Leadership through Regis University. David has been invited to speak on multi-generational workplace issues for numerous organizations across the country.

He has been teaching, training and learning about workplace diversity issues for over 15 years. He believes that as the workforce continues to diversify, the challenge for successful organizations will be leveraging the differences people bring in order to achieve goals. His workshops focus on meeting these challenges through creating respectful, inclusive and productive environments. His particular focus in training and consultation has been on developing current and emerging leaders in the effective deployment of the most essential organizational resource; it's people. His diversity philosophy is simple: It's not about "them", it's about you. For more information or consultation, please contact David @ (303)-564-6628, or by email @ daremson@msn.com.

LINDA MARIE MANTON

Thursday, July 16th Multi Disciplines
Majestic C & D – 8:30–12:00

Linda Marie Manton has been in the Cooperative Extension System for over 36 years. Linda Marie is currently a Cooperative Extension Regional Director of the University of California Division of Agriculture and Natural Resources; and, provides leadership to seventeen counties. She has also served as County Director in two of those counties. Prior to this, she was at the University of Illinois Cooperative Extension as a county-based adviser. She received a B.A. in Home Economics/Early Childhood Development from California State University, Fresno, and an M.S. in Extension Education from the University of Illinois. Linda Marie is also Myers-Briggs Qualified, Certified Trainer in Essential Facilitation through Interaction Associates, Certified Facilitation Trainer through University of Maine Cooperative Extension, and a Certified Trainer for Crucial Conversations through VitalSmarts. She has been a trainer of Crucial Conversations for three years and enjoys working with people in developing their communications skills.

DARLENE LIESCH

Thursday, July 16th Multi Disciplines
Majestic C & D – 8:30–12:00

Darlene Liesch has been with the Cooperative Extension System in California for 25 years. During that time her main focus has been the 4-H Youth Development Program in Kern County. Working with over 500 4-H volunteers gave Darlene understanding for the need for good communication skills. She is currently the County Director for the University of California Division of Agriculture and Natural Resources in Kern County. Darlene received her B.A. in Home Economics from California State University, Humboldt and her M.A. in Education, Curriculum and Instruction, from California State University, Bakersfield. She is a Certified Trainer for Crucial Conversations through VitalSmarts and has been training for three years. Darlene believes that good communication is a life-skill that encompasses situations for work and home, colleagues and family.

REGINA (GINA) ALCOMENDRAS

Thursday, July 16th County Clerk
Majestic A & B 8:30-10:30

Gina Alcomendras is the Santa Clara County Clerk-Recorder since 2006. She is responsible for overall management of this 74-member office through eight divisions that provide direct customer service, technical, clerical, and administrative support. She also manages special projects, such as archival book restoration, supervision of the County Archivist, and microfilm and microfiche conversion projects. Gina is an officer of the County Records' Association of California and a member of the Board of Directors of the California Association of Clerks and Election Officials. She is an active participant in several committees in these organizations, such as Legislative Committee, Certification and Training Committee, and the Clerks' Reference Manual Committee.

Gina was the Assistant County Clerk-Recorder for six years and was responsible for managing the day-to-day operations of the office. In this role she was also responsible for resolution of customer service issues; establishing and revising processes and procedures; ensuring compliance with federal and local laws, and standard accounting practices; setting and achieving production and customer service goals; resolving personnel issues and ensuring consistent hiring practices.

Before coming to Santa Clara County, she served as the Administrative Manager for the Alameda County Clerk-Recorder's Office. In her twelve years there, her duties included managing the Recording Division, Accounting Division and Administrative Support Division.

Gina holds a combined degree in Management and Industrial Engineering. She is currently pursuing an MBA at Holy Names University.

GARY M. TERAGAWA

Thursday, July 16th General Session
Majestic 1 – 3:30–5:00

Gary Teragawa completed over thirty years in law enforcement, receiving a service retirement as a lieutenant with the CHP, serving eight years as a lieutenant commander. He was elected to the Board of Directors for the Colusa Regional Medical Center and the Family Water Alliance in Maxwell. He serves as a public safety consultant and advisor. In February, 2009, he was selected to be a consultant for the Colusa County Division of Public Health, to assist the County with coordination of activities and completion of Local Emergency Medical Services Agency and County Partnership deliverables for the Hospital Preparedness Plan. He came out of retirement in 2008, to serve as the Chief of Public Safety for the 44th District Agricultural Association, Colusa Fair. In his career with the CHP, he served as the executive lieutenant for the CHP Yuba-Sutter Area Office in Sutter County, commander of the CHP Williams Area Office in Colusa County, operations lieutenant at the CHP Santa Ana Area Office in Orange County, commander of the CHP Calexico Inspection Facility in Imperial County, operations lieutenant at the CHP Capistrano Area Office in Orange County and operations lieutenant of the Boarder Division CHP Safety Services Program for the protection of state properties of San Diego and Orange Counties. He completed a career development assignment at the Office of Special Representative, the CHP lobbyist.

He has prior experience with the California State Police, as commanding officer of the San Diego District Office; University of California Police (fifteen years as a sergeant, detective and officer), at UC Irvine, was the incident commander for the Orange County Hospital Emergency Administrative Radio System at UCI Medical Center for mass casualty incidents from 1988 to 1992, also served as the interim Director of Parking and Transportation in 1993, operations commander for major university campus events and major critical events; at UCSF, served as an administrative sergeant, bomb technician, crime prevention specialist, detective, and hostage negotiator; as a deputy sheriff in the Solano County Sheriff's Office, served in patrol, jails and extraditions; served as a police officer for the San Francisco Housing Authority Police; a reserve deputy sheriff in the Yolo County Sheriff's Office; and as a special police officer in City College of San Francisco.

Gary was born and raised in San Francisco, where he graduated from Lowell High School, then earned an A.S. degree in Criminology from City College of San Francisco and a B.A. degree in Criminal Justice from California State University, Sacramento. He possesses a Life Time Limited Services California Community Colleges Teaching Credential for Police Science. In addition, Gary has completed the California Peace Officer Standards and Training Supervisory Course, Middle Management Course, the Supervisory Leadership Institute, the Advanced Police Management course and the CHP Command Course. He has been an Academy Instructor for the UCSF Personal Safety Officer Academy, a CHP Associate Academy Instructor for Community Oriented Policing and the Power of One and has provided training to a number of allied agencies, associations and the P.O.S.T. Middle Management Course.

Gary's hobbies include collecting police memorabilia and history, antiques, traveling, and bicycling.

MARIANA GITOMER

Thursday, July 16th County Clerk
Majestic A & B 8:30–10:30

Mariana Gitomer is the Public Information Officer for the Social Security Administration (SSA) in Los Angeles. She is responsible for all public information regarding the programs administered by the Social Security Administration. She is the primary liaison with the community and the media for issues related to Social Security. Mariana conducts seminars on all issues related to Social Security benefits and services.

Mariana has a Bachelor degree in History from California State University, Long Beach and a Masters and Candidate in Philosophy Degree in History from University of California Los Angeles.

HOWARD JOSEPHS

Thursday, July 16th County Clerk
Majestic A & B 11:00–12:00

Howard Josephs began his career with the U.S. Department of State at the Los Angeles Passport Agency in 1991. Starting as a Passport Examiner trainee, he advanced to become a Senior Passport Specialist. In 2001, Howard became the Honolulu Passport Agency's first Customer Service Manager. And in 2008, Howard returned to Los Angeles to assume the position of Customer Service Manager for the Los Angeles Passport Agency.

MARIA MINDLIN

Thursday, July 16th Multi Discipline
Majestic C & D 1:30–3:00

Maria has a graduate degree in Education from University of California Davis. She is linguist, teacher, and expert witness in Readability. She has over 10 years experience teaching Readability to elections and legal professionals in California, New York, Texas, Utah and Ohio.

Maria has drafted over 800 plain language legal, consumer, and elections documents for print and web for state courts, departments, and public agencies across the country. She recently helped the Secretary of State draft the new plain language Voter Registration Card, and has helped several counties create poll worker training guides that are easier to read and use.

Participants will enjoy this hands-on class, and walk away with skills and documents they can put to use immediately, including learning how to quickly evaluate documents for readability, and to identify and overcome readability obstacles.

Cliff Currier, Joni Chintala

A. Rifkin Co. offers a line of fabric bags with Keyless Security™, featuring a specialized closure using numbered seals, for high-level document protection. Many Keyless Security™ bags have been custom-designed to meet state provisional ballot requirements. One style popular with many counties is the Supply Bag (with key Locking or Keyless Security™) that can be collapsed and stored flat. We also offer a Rolling Supply Bag, which adds in-line skate wheels and a telescoping handle to our standard Keyless Security™ Supply bag. **Featured for 2009** — Secure 4-wheel Rolling Bags for transport and storage of ballots and election supplies and ballot bags protected with new Keyless Security slot.

Rifkin inventories a wide variety of security and transport bags which are available for shipment in 3 days. Another popular security item—residue-free, self-adhesive, bar-coded, tamper evident label to secure voting machine. **New**—additional styles of numbered seals for machine security.

Rifkin offers custom embroidery of county/precinct name for bag identification and numbered and bar-coded plastic security seals for provisional ballot and voting machine security.

ACS EXIGENT SOLUTIONS

4000 Executive Parkway, Suite 275
San Ramon, CA 94583
925-866-1962; FAX 925-866-1708

Sheila Maxwell, Peaa Hatfield

ACS GRM (Government Records Management) is the largest provider of government records management solutions and systems in the United States. Three things set us apart from other government records management providers: our spectrum of services, our experience, and our resources.

Spectrum of Services. We are a single-source, comprehensive service provider, not just an equipment and software marketer. We offer all the services needed by county offices under one roof: indexing, re-indexing, verification, microfilming, binding, data backup, conversion of microfilm to digital images and image to film, and disaster recovery. We also offer internet access services and web-delivery of our customers' records, providing secure, immediate access for those who need it.

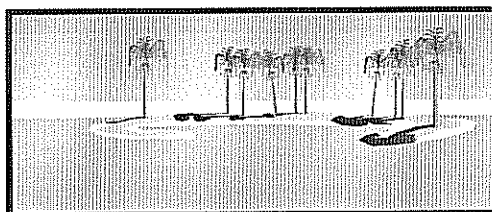

Experience. For over 40 years we have been a leading provider of computerized recording, imaging, and indexing systems for vital records land recording offices; offering solutions for marriage license processing, birth and death records, fictitious business names processing, and multiple permitting solutions. We have our solutions in over 1000 government agencies, and land and vital records in over 530 locations.

Resource. ACS has the largest assembled team of Official and Vital Records specialists available in the county government business today. This team provides the programming resources to generate proven application software for Clerk systems, including installation and support expertise and system problem resolution.

Since 1984, *AtPac*, a California based company, has been an innovative provider of quality software to local and state government. In 17 West Coast counties with a combined population of over 5 million, we have successfully implemented solutions for the very small (6,000 documents annually), to the very large jurisdictions (over 900,000 documents annually). Our software automates all aspects of the Clerk and Recorder functions (cashiering, imaging, indexing, storage, and retrieval) as well as e-recording and redaction of personal information. Our image conversion project teams are successfully managing the scanning and indexing of millions-of records per year. Talk to us about the future of technology in government.

BOWE BELL + HOWELL

760 South Wolf Road
Wheeling, IL 60090
847-423-7509; FAX 847-423-7503
www.bowebellhowell.com
Dom Michael, Scott Johnson, Melissa O'Neal

BOWE BELL+ HOWELL offers a solution that addresses typical concerns with election processing, utilizing industry leading SABRE® and WinSort® products on a Criterion® sorter. BOWE BELL + HOWELL products significantly reduce the time required to process incoming ballots, realize USPS® discounts by presorting election packages to be mailed to voters, simplify training needs and reduce temporary staffing needs by minimizing mail handling. BOWE BELL + HOWELL products efficiently and securely verify envelopes using multiple parameters (including signature verification), date and time stamp individual envelopes and selectively open envelopes in a single pass, review and audit specific or random envelopes interfacing with election management system.

The BOWE BELL + HOWELL Vote by Mail (VBM) solution offers the ability to efficiently verify and out sort ballot return envelopes based on: signature match (utilizing integrated automated signature verification with configurable threshold levels), thickness (for the correct number of inserts), duplicates, challenge codes for multiple error conditions, and precinct numbers.

BROWN'S RIVER RECORDS PRESERVATION SERVICES

One Allen Martin Drive, P.O. Box 8501
Essex, VT 05451
800-639-3027; FAX 802-878-0932
brownsriver@juno.com; www.brownsriver.com
Dennis Curran

For thirty-five years, Brown's River has worked with counties and municipalities around the country in the conservation/preservation of permanent public records. We have helped officials in California and in thousands of public offices across America establish and implement cost effective preservation programs for permanent records, which are subject to deterioration from continual handling, imperfect storage conditions and the effects of acidic paper, inks and adhesives.

Procedures, based on accepted conservation practice, include deacidification, paper repair, rebinding or Archival Polyester encapsulation. Our extensive experience in treating a wide range of materials found in public offices reflects our focus on county and municipal records, assuring the highest quality result. Also offered are high-density mobile shelving, map storage systems, modular vaults systems and imaging services.

CALIPER CORPORATION

1415 Rhode Island Avenue NW #919
Washington, DC 20005

PUBLIC NOTICE ADVERTISING: COMMUNITY, ETHNIC NEWSPAPERS AND WEB SITES.

Since 1934, all levels of government agencies have used our free media placement services, California Newspaper Service Bureau, to inform the public of government actions and services. Our long experience and exceptional qualifications in government advertising allow us to provide superior service. We have extensive experience with legally mandated advertising, recruitment, and public awareness advertising. There is no service charge above the commissionable cost of your advertisements. We provide advance prices for suggested media placement for approval. As your sole source, we make the necessary contacts with the media vendors to confirm scheduled ads and retrieve proofs and charges relieving your staff from this burdensome task.

Our free online ad and budget tracking software, AdTech, provides instant media placement and archives all invoices and proofs. For an in-office demonstration please call 1-800-788-7840 ext. 5584 or e-mail Erick_Rodriguez@dailyjournal.com.

DFM Associates is a software firm specializing in governmental information systems. The firm began its business in 1977 and has remained in dedicated service of County Government, providing Elections, Clerk and Recorder products, since its inception.

Our Election Information Management System, EIMS®, is the **best tool for voter registration and election management**. It provides comprehensive integration with the current CalVoter Statewide Voter Registration Database which includes fully automated exchanges between the county and the state.

The EIMS® application covers every aspect of voter registration and election management including a robust Vote-by-Mail module. Additionally, EIMS® seamlessly integrates with popular Absentee Ballot Mail processing (both outgoing/incoming) and Signature Comparison systems from Pitney Bowes, Diebold and Bell & Howell. The user screens capitalize on the familiar Windows environment, making the system easy to learn and use with easy navigation between the different modules, screens and reports.

A key aspect of the EIMS® software is the ability to interface with the top Optical Scan Voting and DRE Voting Systems on the market today. We have successfully integrated with the ES&S, Diebold, Hart InterCivic, and Sequoia Ballot Counting products to provide for an end-to-end solution.

Our **32 years of experience** in providing elections systems and support, coupled with our dedicated staff, has allowed us to build the best possible solution to meet your election information management needs.

Grant Gyuinazaryan, Jose Dominguez

SouthTech Systems, Inc. is a software development and system integration firm headquartered in Riverside, California, specializing in systems for County Clerks, Records, Clerks of the Board and Election Officials. SouthTech Systems offers highly configurable semi-custom turnkey applications. Our list of products includes:

DisclosureDocs™ - Complete automation of FPPC Mandated Form 700. It will assist in meeting FPPC requirements for tracking filer compliance, image storage, enforcement and annual review. Enhance your compliance with FPPC regulations and provide an audit trail of all enforcement activities.

eDisclosure™ - Works hand in hand with DisclosureDocs and offers secured web access to the FPPC Form 700 and a user based login provides secure access to individual filer's profile and prior years' filings.

CampaignDocs™ - is a software solution to assist Elections Officials in management of the FPPC mandated Campaign Financial Disclosure Statements. It uses database, image storage and retrieval, bar code reading, Word templates, automated report generation and optional web publishing technologies to replace the manual paper based record keeping currently in use.

AgendaBuilder™ - is a client-server comprehensive database system that assists in preparing agendas. **AgendaCD** and **Web Publisher** allow agenda and related staff reports to be distributed electronically to elected officials and the public.

TNC PRINTING SPECIALISTS INC.

dcampbell@tncprinting.com; plpeake@tncprinting.com
Donna Campbell, Pamela Peake

TNC Printing Specialists, Inc. is an election services/supply company. Established in 1995, TNC is now 100% female owned and has over 40 years experience in the conduct of State, Federal and County elections, as well as 13 years printing experience.

Our Election services and supplies include Sample Ballots, continuous and laser forms, including envelopes, postcards and self-mailers. TNC also provides signs, posters, flags, voted ballot containers, permanent seal plastic envelopes for storage of voted ballots. Also available are Affidavit of Registration display boxes, transport boxes and election cases on wheels for precinct and election supplies. We make custom covers for the case on wheels with top slit for Official Ballot Box conversion at the polling place, as well as custom covers for DRE racks for dust and moisture free storage.

Our newest product is a corrugated Ballot Box with security seal for paper ballots as an interim solution until the DRE's are re-certified.

Our goal is to provide the Election Community with excellent customer services and the finest supplies available. We specialize in custom items to suit each county's needs to make your job easier and more efficient in the conduct of successful elections.

Chris Ortiz, Ray Ortiz, Jeff Johnson

UNISYN VOTING SOLUTIONS, Inc. (Unisyn) – A pioneer in providing a Linux based Open Review voting system that is vital to the transparency and audit of elections. Unisyn has a full suite of products and our complete “end-to-end” voting system is being tested to the 2005 Voting System Guidelines and meets all the HAVA requirements, including conformance to the ADA legislation.

--The OpenElect Voting Optical (OVO) scan voting machine specially built to serve at the precinct level with the required “second chance” voting that provides validation and tabulation of ballots at each precinct. This innovative voting machine is capable of validating and counting both full size paper ballots as well as 3 ¼ “ ballot cards and is self-contained, easily transported and includes a color touch screen operator interface.

--The OpenElect Voting Interface (OVI) is an ADA and Early Voting machine, designed with *true* Open Review software. This machine is the future for ADA compliance and can be used for Early Voting and Absentee Voting in the office; presenting regional ballots to each voter. The OVI will produce a 3 ¼” paper or ballot card for absentee, provisional, or for early voting. Voters are able to vote via a touch screen utilizing a unique keypad with a headset and an available sip-n-puff device.

--The Open Review Voting Central Scan (OVCS) – is an application that interfaces with a high speed scanner to quickly process and tabulate large numbers of ballots, capture images, and extract write-in images from ballots for reporting purposes.
